## Mixed Tennis Ladder Rules and Scoring System

There will be several groups in the Ladder League depending on the number of participants.

Each group will have 4 or 5 players. Each player will play every player in the same group i.e. you play 3 or 4 matches. These matches have to be played within the league period.

League period: 2months but may vary. It will be set by the Organiser.

At the end of each league period, the total league points of each player is aggregated and new position calculated. A player with highest points will go up one group. A player with lowest points will go down one group.

If there is a draw between two players, promotion will go to the winner of the two. If they have not played, promotion will go to the player with the most wins, or if equal, the least number of games conceded.

If you are late by more than 15 minutes or do not turn up, you get **0 league point** and your opponent gets **7**.

If you consistently fail to play your matches **or do not return phone calls**, you will not be re-entered.

### Matches & Scoring
